PVOC PROGRAM OPERATIONS MANUAL

1. INTRODUCTION

1.1. General Overview of the PVoC Program

PVOC Program is a conformity assessment program applied to products at the respective exporting countries, to ensure their compliance with the applicable Kenyan Technical Regulations and Mandatory Standards or approved specifications.

1.2. Legal Basis of the PVoC Program

PVOC program was started on 29th September 2005 by KEBS, through the publication of Legal Notice No. 78 of 15th July, 2005 by then Minister for Trade and Industry. The Legal Notice has been superseded by the Legal Notice No. 127 of 19th June 2018. The program is also fully compliant with the provisions of Article 5 of WTO TBT Agreement.

1.3. Objectives of the program

- To ensure quality of products, health and safety, and environmental protection for consumers.
- To facilitate trade by ensuring that compliant goods are given expedited clearance at the port of entry.
- To safeguard the country from unfair trade practices and dumping of substandard goods by ensuring that imported products comply with the same requirements to which locally manufactured goods are subjected.
- To safeguard the country's national security.
- To prevent deceptive trade practices.
- To enhance efficiency of clearance of imported goods at the ports of entry

1.4. Operations of the Program

- The program is operated by accredited third party inspections companies on behalf of KEBS.
- The world is divided into nineteen (19) regions based on proximity and trade volumes. In addition, the program provides for multiple Partners in majority of the regions to enhance efficiency.
- The basis of certification is Kenya standards or approved specifications.

2. TERMS AND DEFINITION

- **RFC**- Request for Certification
- **Mobile Equipment** - refers to trailers, bulldozers, agricultural / Industrial machinery, excavators, graders, moveable cranes and off-road vehicles

3. RESPONSIBILITIES UNDER THE PVOC PROGRAM

3.1. Importers

Ensure their suppliers are conversant with import quality requirements specified in relevant Kenya Standards or approved specifications and that their consignments are accompanied with a Certificate of Conformity (CoC) from the appointed PVoC Partners. Ensure goods that are imported meet Kenya Standards or approved specifications and regulatory requirements.

3.2. Exporters

Ensure their products or goods meet the regulations and quality requirements of Kenya before shipment by carrying out tests based on relevant Kenya Standards or approved specifications and/or obtaining the necessary Certificate of Conformity (CoC) from the appointed PVoC Partners for all products subject to the PVoC program.

3.3. PVOC PARTNERS

Six (6) inspection companies (PVoC Partners) namely: Bureau Veritas, Cotecna, China Certification & Inspection (Group) Inspection Co. Ltd, Intertek International, SGS and QISJ have been contracted by KEBS to undertake PVoC activities. The role of these Partners is to undertake conformity assessment activities in the country of origin for products and vehicles being imported into Kenya. These activities include inspection, sampling, testing, sealing of full-load containers and issuance of COCs / COIs / CORs/NCR

The inspection shall be scheduled in liaison with the exporter and perform the physical inspection of commodities within four (4) working days for sea bound shipments and One Working Day for air freight upon receipt of the duly completed Request for Certification form and other relevant documentation from the exporter unless otherwise requested by the exporter in writing.

Issue certificate of conformity within two (2) working days of receipt of final documentation and meeting payment terms from the exporter/importer for sea bound cargo and one (1) working day for airfreight where the verified consignment complies with the applicable standards, specification and/or regulations.

3.4. KEBS

Ensure that only quality goods gain entry into the country as provided for in the Standards Act Cap 496, Laws of Kenya and The Standards (Inspection of Imports) Order, 2018 (Legal Notice No.127 of 19th June, 2018), thereby protecting consumer health and safety as well as environment in addition to promoting fair trade practices.

3.5. Partner Government Agencies

All other government agencies with mandate over international trade operations shall continue to remain accountable for the discharge of their respective mandates in accordance with existing legal frameworks, but subject to adherence with the guidelines provided by the Government circular reference OP/CAB 9/83A dated 4th June, 2019.

4. PVOC SCOPE

All imported goods destined to Kenya including those regulated by Partner Government Agencies except those listed in Annex 2 shall be required to undergo mandatory certification in the country of origin or supply prior to shipment into the country. The certification shall be carried out by the appointed PVoC Partners.

5.3. Certification Routes for General Goods

The PVOC program has been designed to provide maximum flexibility to exporters and importers by providing four (4) possible routes for obtaining the COC/COI. The route applied depends on the frequency of exporters' shipments to Kenya and the level of compliance they are able to demonstrate initially when applying for certification.

5.3.1. Route A (Consignment inspection and Testing)

Under this Route, products to be shipped have to be both tested and physically inspected to demonstrate conformity to relevant standards and regulatory requirements. This route is open to all products being exported by either traders or manufacturers. Additionally, all containerized cargo under this route must be sealed by the contracted inspection agencies and seal and container numbers indicated in the CoC.

5.3.2. Route B (Product Registration)

This route offers a fast track certification process for goods with reasonable and consistent levels of quality through registration of such products by the PVoC Agent. Product registration is recommended to Exporters having frequent shipments of homogenous products. The registration is valid for a period of one year. Shipments of registered products are exempted from mandatory testing and certification may be based on physical inspection only. However, regular testing of registered product is still required to ensure product conformity throughout the registration period.

The following products are however not eligible for registration under Route B (i.e. are subject to certification under Route A only);

- Sugar
- Cereals and pulses such as Rice, wheat, beans, Maize etc.
- Fertilizer.
- Animal and Fishery products (fresh and frozen- not further processed)
- Fresh dairy Products
- Fresh horticultural produce
- Used or second hand goods
- Cooking Oils
- Tyres

5.3.3. Route C Product Licensing:

This route is open only to manufacturers who can demonstrate existence of a quality management system in their production/ manufacturing process. It involves auditing of such production processes and licensing of products manufactured thereof by authorized PVoC Agent(s) in line with ISO Guide 28: 2004. On successful conclusion of this process, the manufacturer will be presented with a License for the relevant products valid for a period of three (3) years. Licensed products shall be subject to random physical inspection by authorized PVoC Agent(s) prior issuance of Certificate of Conformity and subsequent shipping of the same. However, the PVoC Agent(s) shall carry out limited testing during the license valid period.

Note: The PVoC Agent(s) will review the Request for Certification (RFC) received from the exporter before determining the most appropriate certification route and the applicable standard to be used in the certification process.

5.3.4. Route D Consolidated Cargo Imports

This route is open only to registered importers of consolidated cargo. This is cargo containing a wide range of products or merchandise generally in small quantities or parcels belonging to several consignees who have pooled or assembled together their parcels to form one consignment which may be declared as belonging to one importer at the port of destination or de-consolidated back into the original individual consignments for delivery to the respective cargo owners upon arrival at destination port. For purposes of this procedure a consolidated cargo shall contain not less than 3 different products/ brands.

Registered consolidators, who bring together separate items from different individuals or sources into a one consignment for importation, shall apply for certification and submit the packing list and commercial invoice to PVoC agent at least forty-eight (48) hours before inspection. The PVoC partners shall assign the required number of inspectors to the consolidation points to undertake inspection and thereafter issue Certificate of Inspection (CoI). High risk goods imported through this Route shall be subjected to testing at destination by KEBS before release. Importers of such goods are required to meet the cost of testing at destination. Additionally, all containerized cargo under this route must be sealed by the contracted inspection agencies and seal numbers indicated in the CoC.

5.4. Fees Charged Under the PVoC Program

- **Route A:** 0.60% of the FOB Value min USD 265 max USD 2700
- **Route B:** 0.55% of the FOB Value min USD 265 max USD 2700
- **Route C:** 0.35% of the FOB Value min USD 265 max USD 2700
- **Route D:** 0.75% of the FOB Value min USD 265 max USD 2700

The above fees cover documentary verification, physical inspection and sampling including sealing of the containers where applicable. The fees do not include: -

- Laboratory testing
- Manufacturer Licensing
- Registration fees
- Sampling of Bulk shipment
- Re-inspection.

These services shall be charged directly by the contractor on a case by case basis.

5.5. Enriched Certificate of Conformity

The Government through a Government circular reference OP/CAB 9/83A dated 4th June, 2019 directed that the number of port operators be reduced from 28 to 4. For the purposes of ensuring conformity to quality standards and the adherence to other regulatory requirements for cargo entering the country, KEBS was mandated to be the lead agency for the purpose of coordinating the inspection of goods at the country of origin and the issuance of enriched CoCs where goods comply with the requirements and issue a NCR to goods that do not comply to requirements.

6. MOTOR VEHICLES, MOBILE EQUIPMENT AND USED SPARE PARTS THEREOF

6.1. Motor vehicle inspection

KEBS has appointed Quality Inspection Services Inc. Japan (QISJ) to offer Pre-Export Verification of Conformity services in Japan, United Arab Emirates, United Kingdom, Thailand and South Africa for
